# Osaki Massage Chairs

The operation of the Osaki Massage chairs are controlled by a microcomputer that performs various intelligent massage methods and combinations, like Kneading, Tapping, Clapping, Shiatsu, Rolling, Vibration and Air Massage. All these methods massage acupressure points accurately to effectively alleviate fatigue, promote metabolism and improve blood circulation.

With twin rollers and computerized scanning, these chairs mimic the feel of the human touch, thereby enhancing the massage experience. With an ergonomically correct 'Zero Gravity' reclining design that takes virtually all the burden of gravity off your spine. They cradle the body like a baby leaving you with a feeling of weightlessness keeping you completely relaxed.

Human Hand-Like Massage

## OS-PRO MAESTRO

Experience the most lifelike massage from Osaki. Featuring new 4D technology and an all new SL-Track for an incredible massage experience from your neck all the way down to the back of your thighs.

4D Massage Technology

Heated Rollers

Calf, Bridge and Heel Massage

## OS-PRO EKON

Experience an advanced, human like massage with the OS-PRO EKON. With 3D massage technology, SL-Track system, calf roller massage, music and deep tissue strength. The PRO EKON outperforms most chairs in feel and features.

3D Massage Technology

Auto Leg Scan

Calf and Heel Massage

## OS-PRO MAXIM

The OS-PRO MAXIM features an SL-Track rolling system to deliver an incredibly consistent massage. The internal microcomputer accurately scans the body's curve and to map key areas of the neck and back.

SL-Track

Tablet Style Touch Screen Remote
